

**Form for reporting on the Recommendations  
on Corporate Governance, 6 May 2013**

This form is meant as a tool for Danish companies with shares admitted to trading on a regulated market who wish to report on the company's compliance with the Recommendations on Corporate Governance in a standard reporting format.

The recommendation text of this form does not replace the recommendations; reference is made to the Recommendations on Corporate Governance with regard to preface, introduction and comments. The Committee's comments on the recommendations may be included as guidelines and inspiration for companies in their work on the recommendations. In this connection the comments are meant as a tool. The reporting on corporate governance itself should only be carried out in compliance with the specific recommendations of the Committee, and not according to the comments or guidelines.

The report must be composed in Danish and must be provided in a corporate governance report published as either part of the management commentary on the annual report or on the company's website with exact reference to the management commentary. The Committee believes that publication of the corporate governance report on the company's website - with exact reference to the report in the management commentary - creates the highest degree of transparency. Publication of the report on the company's website provides easier access for investors and other stakeholders.

Under the Danish Financial Statement Act a publication on the company's website requires that the URL address – where the corporate governance report is published – is stated in the management commentary in the annual report. The URL address must be the internet address which can be used to access the report **directly**.

There are further requirements to the preparation of the report on corporate governance and how it is to be published. The detailed requirements are described in Executive order no. 761 of 20 July 2009 on Publication of Reports on Corporate Governance and Corporate Social Responsibility in supplementary reviews and on the business' website.

**Notice:** The form below contains the Recommendations of the Committee on Corporate Governance of 6 May 2013. The recommendations are available on the website of the Committee on Corporate Governance [www.corporategovernance.dk](http://www.corporategovernance.dk). NASDAQ OMX Copenhagen A/S has decided to include the recommendations in the Rules for issuers of shares by 1 June 2013. An amendment to the recommendations from the Committee on Corporate Governance was published in May 2014.

### **“Comply or explain”**

If a company deviates from parts of the recommendations, the company has to explain the reasons for the deviations, cf. section 107 b (1) (iii) of the Danish Financial Statements Act. The company has to explain why it has chosen not to comply with a recommendation and what it has chosen to do instead. Failure to comply with a recommendation is not considered a breach of rules, but merely implies that the board of directors of the company has chosen a different approach. The market must decide whether deviations are justified and whether the explanation is satisfactory. A good explanation provides specific insight for stakeholders to be able to decide on any investments. In order to create the transparency necessary for investors, companies must respond to each recommendation and provide information on whether or not they will comply with the recommendation in question.

Note that the reporting must reflect the current style of management at the time of the reporting. In the event of significant changes during the year, or after the balance sheet date, descriptions of the changes should be included in the corporate governance report. Companies must consider each of the recommendations.

If the company complies partially with a recommendation the company must specify which parts it is complying with, why it is deviating from the remaining part of the recommendation and what it has chosen to do instead.

The Committee has observed that many companies choose to provide supplementary information even in cases where the company complies with a recommendation. The Committee encourages companies to provide supplementary information where this increases transparency.

The report is part of the full Management's Review in the Annual Report for 2013/14 and concerns the financial period
